

# FISH STORIES & SIGHTINGS OF WILLIE WALLEYE

---

---

## Section Three

*We live in a community where “fish stories” are common! You know, stories about “the big one that got away” or how “it took me 45 minutes to land it” or that “it was so – o – o – big that...”!*

*It seems that with fish stories, the more they are told the more dramatic they become! The stories you’ll read in this section of tall tales are no exception. Willie has been responsible for more than one fishing mishap, for lost tackle and tangled fishing lines, and as always the source of a good time fishing with family and friends on Lake of the Woods!*
