

WILLIE WALLEYE OUR HERO

Section Five

Willie Walleye is a hero to many. Over the years he has been responsible for saving Baudette from the 1910 Fire, for overcoming the 1927 drought when the farmers along the Rainy River were suffering, and for helping scare away the commercial fishing boats on the lake. Willie created the deep channels of the Rainy River so that the area wouldn't flood, and he has even saved children who love to play in the Baudette Bay and Willie Walleye Park from danger.

Yes, Willie Walleye is our hero (and he loves to eat peanut butter and jelly sandwiches)!
